BRYAN HADDEN

Lead FullStack Engineer | Node & React | API Optimization | Team Development

bryanchrishadden@gmail.com • linkedin.com/in/bryanhadden • Atlanta, GA

Skills

Node · TypeScript · React · Microservices · GraphQL · ContentStack · MySQL · GitHub · GitLab · DataDog · Java · Python · Jenkins · Jest · jQuery · MongoDB · Next.js · PHP · Postman · Python · Redux · Salesforce · Datadog · Django · GitHub Actions · WordPress

Summary

Senior Engineering Leader with 8+ years of experience architecting and delivering high-performance web and mobile applications. Proven track record of leading technical teams, optimizing system performance, and implementing scalable solutions across diverse industries. Specializes in React/Node ecosystems and microservices architectures.

Key Achievements

Improved checkout conversion by 5.5%

Reduced SiteOne checkout time 15% with custom React dropdown for instant address selection, cutting backend queue time 10% and increasing conversion rate by 5.5%

Sped up Backend APIs by 25%

Optimized architecture configs files, env variable delivery and environment resulting in 25% improved system performance, validated with Datadog metrics

Increased team output by 35%

Established technical guidelines and testing strategies that reduced QA cycles by 3 days per sprint and increased development velocity by 35% over 16 month period

Experience

Bed Bath & Beyond

Location

Lead

02/2025

- Reduced API response times by 40% through GraphQL Federation BE implementation for React Native
- Optimized architecture configs files, env variable delivery and environment resulting in 25% improved system performance, validated with Datadog metrics
- Delivered 8 custom features with 99% test coverage using Postman validation workflows in first 90 days

SiteOne Landscape

Location

Lead

08/2023 - 02/2025

- 15-person team developing complex React/NextJS components, rebuilt ReactJS web components resulting in 40% faster customer data integration and 99.8% security compliance
- Reduced checkout time 15% by implementing custom React dropdown for instant address selection, cutting backend queue time 10% and increasing conversion rate by 5.5%
- Partnered with Directors to modernize frontend review process, integrating with existing tools (Slack, Office) to streamline feature delivery by 35% and reduce QA cycles from 5 days to 3

Freelancer, Sr Fullstack Developer

Location

Sr FullStack Engineer

12/2019 - 02/2021

- **Salesforce** - Rebuilt Salesforce streaming app, 1.5 Million+ yearly users, in React & Salesforce Web Components
- **Disney** - Rebuilt Python/Django app responsible for company-wide security (Lucas Films, Disney Parks, Pixar, etc)
- **Chick-Fil-A -**In the first two months took ownership of and delivered the favorites React feature which makes up about 1/3rd of the current app; Launched the new CFA web app nationally & internationally.

Experience

NCR
Location

Lead
02/2021 - 08/2023

- Directed comprehensive UI development with hands-on management of web application architecture, achieving 42% reduction in state management cost across frontend/backend systems
- Led NCR documentation initiative maintaining 50K+ pages via React/NextJS for clients like Walmart, & Starbucks + tripling documentation and reducing time to find docs by 30 minutes on average
- Established technical guidelines, specifications, and testing strategies. Reduced QA cycles by 3 days per sprint and increased development velocity by 35% over 16 month period
- Tech Stack - NextJS, Azure, Github Actions, Canary Deployment, NextJs, Node, MicroServices, Docker

Porsche
Location

Lead
09/2018 - 12/2019

- Architected vessel tracking application covering €3B+ in product, delivering global real-time insights
- Led development of enterprise applications serving 100+ users across all levels (port managers to C-Suite), reducing operational reports turn around from 30 days to 2 (per month)
- Tech Stack - AWS, GCP, React, Node, Python, MongoDB, Angular, Jenkins, GraphQL (FE and BE)

Home Depot
Location

Frontend & Designer
05/2017 - 09/2018

- Joined as a UXer, took initiative to also add development to my skill set when I saw the opportunity
- Implemented and maintained several ec2 instances for internal sites via PHP, Javascript, GCP
- Tech Stack - GCP, React, Angular, Vanilla Javascript, jQuery, React, Node, Angular, PHP

Education

Winston Salem State University
05/2006 - 12/2010

Business Admin
